### Richardson Cap

The Richardson 112 Trucker Snapback Hat is available in 6 color combinations. In true trucker fashion, this hat still offers structured, six-panel construction with a polyester mesh back, but with a slightly more flattering mid-profile rise. The pre-curved bill has been stitched with eight rows of contrasting thread that matches the mesh portion of the hat, adding a touch of vintage style. Unlike many other trucker hats, the stitching is continued around the structured front panel of the hat, giving it additional points in the style department. The underside of the bill matches the color of the visor for a more custom look. This trucker cap is one-size-fits all, with an iconic, adjustable plastic snap closure. The best part, the Texas Original Pits logo is prominently displayed on the front in your choice of orange or black. With an adjustable snapback design, one size fits most.
