

— WOOD RACK & COVER —

The Classic 48" Firewood Rack has been recommended by Cooking Magazines and Television Personalities because of its Classic Look, Moveability, and Great Design. Rugged good looks meet quality and practical design in our black Painted, powdered steel Firewood Racks. These steel beauties are crafted out of 1" tubing 3" x 3/16" Flatbar and 1" tubing and welded together by our skilled team of Texas artisans to create a good-looking half-moon design that easily holds a tenth 1/8 of a cord of wood.
